

GRANULAR ACTIVATED CARBON

Product Specification

-  HIGHLY MICROPOROUS COCONUT SHELL ACTIVATED CARBON
-  82°C
-  sfwt.eu/scg-c

Ordering Details

Product Code	Pallet Quantity
SCG-C	PALLET
SCG-C	—
e.g. SCG-C-PALLET	
Packaging	
	1 bag
	1 pallet
	1 at 25 kg
	20 bags at 500kg

Features & Information

- Ideally suited for the removal of oxidizing agents such as chlorine and ozone from process water
- The SPECTRUM SCG-C delivers excellent mechanical hardness and the extensive dedusting during its manufacture that ensures an exceptionally clean activated loose carbon
- The SCG-C enhanced microporosity makes it well suited for the removal of the low molecular weight organic compounds
- Supplied in polyester double lined valve bags to maximise life
